City Oasis

With concrete and steel dominating living spaces in urban cities, the need to create personal sanctuaries that bring the peace of nature into our homes has never been greater. This growing trend focuses on blending our living spaces with the natural world, using design elements like lush greenery, natural light, and organic textures to make our environment healthier and more calming. It's a design approach that goes beyond just looking good; it creates spaces where we can truly unwind and feel connected to nature.

Originally, architects and designers used these ideas to boost well-being, but now it's a movement embraced by many who seek a retreat from the hectic pace of city life. Today, bringing nature indoors is not just a trend but a powerful way to combat the stresses of modern living. By doing so, it also promotes sustainability and a deeper connection to the world around us.

Royale, with their wide range of colours, unique textures, and rich wall coverings by Nilaya, play a key role in this theme. Whether it's through soft sceneries of flora and fauna against powdery floral pastels or finishes and textures that mimic natural materials, Royale's offerings help transform your walls into the perfect backdrop for a serene, nature-infused space. With the right paint, wall coverings, and textures, you can create your own peaceful haven amidst the urban hustle.

Serene Simplicity

In a world filled with distractions and excess, there's a growing appreciation for spaces that offer calm through thoughtful, minimalist design. Embracing the beauty of simplicity and the peace that comes with it, this approach strips away the unnecessary, focusing on the essential elements that make a home feel both warm and inviting. The palette leans towards soft, neutral tones and pastels that create a soothing backdrop, with textures that are subtle yet rich, adding depth without overwhelming the senses. The result is a space that echoes effortlessly elegant, a true sanctuary from the chaos of everyday life.

Royale, with their wide range of colours, unique textures, and rich wall coverings by Nilaya, perfectly complements this trend, reflecting the understated elegance of natural materials like stone, wood, and sand, or even Basra pearls. With Royale's carefully curated offerings, every room can be transformed into a serene haven where simplicity is celebrated and tranquility takes center stage.

Dark Enchantment

Evolving from the traditional notion of luxury-which was often associated with light, airy spaces-the plushest homes echo rich grandeur through deep, majestic hues that evoke a sense of mystique and magnificence. Embracing a bolder, more dramatic palette, darker colours like deep burgundies, rich blues, and sophisticated greens are now at the forefront of interior design, creating spaces that are both grand yet intimate. This style of movement is versatile, allowing for maximalist expressions with extraordinary patterns and textures or a more restrained approach with subtle accents that add depth and character to a room.

A premium palette of paints, wall coverings, and textures by Royale, combined with its luxurious creme finish, enhances the allure and enchantment of dark hues. Gritty textures that add visual depth and intrigue are paired with prints that celebrate the grandeur of heritage textiles. These are married with a meticulously curated palette that makes a striking statement with a feature wall or creates a cocooning effect within an entire room. An ideal choice for creating spaces that are bold and contemporary while staying timelessly elegant.

Painting Tips

USING PRIMER, BASECOATS, AND ADDITIONAL COAT

Ensure that a primer or waterproofing basecoat is used before applying the top coat of paint for desired paint performance.

Ensure that horizontal surfaces like the top of windows, ledges, and other horizontal surfaces are painted with an additional coat for greater protection

Apply 2-3 coats of paint till you get the desired hiding or opacity, especially in dark shades.

CARE FOR YOUR WALLS:

Removing stains

The golden rule for removing any wall stains is that one should remove it immediately.

For regular household stains like pencil, tea, coffee, crayons, etc., use a 5% soap/disinfectant solution. Use a sponge to remove the stains.

In case of tough stains like turmeric, use a mild detergent solution (e.g., Pril, Vim). Liquid, etc.) for cleaning the stains.

B.REMOVAL OF DUST:

Always remove dirt from top to bottom by using dry muslin cloth; this helps in avoiding loose dirt to smudge the walls.
